

# WHY TELEGRAM? HOW TO DOWNLOAD?

## WHY TELEGRAM?

- It's an App like WhatsApp, but more dynamic.
- It takes nearly zero space on your mobile unlike WhatsApp, all your data is saved on a secured cloud.
- You won't get news in my name, but as "goanews", a dedicated channel.
- You can leave 'goanews' channel as and when you want. No need to delete the sender from contacts, like Me in this case.
- There are many more fascinating features which you can read in FAQ in 'Settings' once you download Telegram.
